University of Science and Technology of China, Hefei, P.R. China, 230026

Education	UNIVERSITY OF SCIENCE AND TECHNOLOGY OF CHINA (USTC) Candidate for B.S. in Statistics Cum. GPA: 3.74/4.3 (87.96/100); Major GPA: 4.04/4.3 (92.14/100) <ul style="list-style-type: none">• 2016 Excellent Student Scholarship (10%)• 2018 Excellent Student Scholarship (10%)• Relevant Coursework: Bayesian Analysis (99), Regression Analysis (90), Complex Analysis (90), Real Analysis (87), Functional Analysis (86), Partial Differential Equations (86), Applied Stochastic Processes (95), Probability (86), Operations Research (97), Mathematical Statistics (92), Algebraic Structure (91), Applied Statistical Software (R & Python) (95), Data Structures and Database (C & SQL) (91), Computer Programming A (C programming language) (88), Introduce to Data Science (A+)	HEFEI, CHINA <i>Aug 2015 – Present</i>
Experience	INTERIM ANALYSES USING MULTIVARIATE REPEATED CONFIDENCE BANDS (MRCBs) Research Assistant, supervised by Professor Rui Wang, Harvard University <ul style="list-style-type: none">• Implemented multivariate repeated confidence bands which accommodate multivariate response and multiple treatment arms• Derived the mean and covariance function of treatment difference and further proved the correctness of the result• Implemented algorithms for calculating the mean and covariance function of single treatment and treatment difference under three settings (repeated measures responses, recurrent events, survival data)• Utilized resampling algorithm to approximate critical values and thus computed the border of confidence bands• Proposed an algorithm which can place confidence bands and confidence regions adaptively• To be continued (undergraduate thesis defense ---- wish to extend MRCBs to the situation where missing value exists) R PACKAGE DEVELOPMENT FOR RTREE, STREE AND MASAL MODEL Research Assistant, supervised by Professor Heping Zhang, Yale University <ul style="list-style-type: none">• Constructed the macs Package for R with Rcpp• Integrated C/C++ into R to implement Classification Trees (RTREE), Survival Analysis Trees (STREE) and Multivariate Adaptive Splines for Analysis of Longitudinal Data (MASAL) model• Programmed powerful functions in R, such as R interface function, plot function, print function, etc.• Proposed an adaptive tree drawing algorithm which can calculate coordinates by recursive computation according to node distribution, and then arrange the position of each node in the plot DATA ANALYSIS FOR INVENTORY MANAGEMENT Research Assistant, supervised by Professor Yugang Yu, University of Science and Technology of China <ul style="list-style-type: none">• Conducted case-driven survey of cross-border e-commerce to develop inventory management strategy• Performed substantial cleaning of in-situ data from a top Amazon seller and fitted data in R and Python• Used machine learning models to improve stock tracking accuracy, anticipate sales and customer traffic to forecast stock requirements TEXT EMOTION ANALYSIS BASED ON THEME Research Assistant, Supervised by Professor Qi Liu, University of Science and Technology of China <ul style="list-style-type: none">• Preprocessed Taobao users' review data with the Chinese text segmentation package (jieba) in Python• Performed part-of-speech tagging, removed stop words and extracted text features based on the theme(price, express, etc.)• Adopted K-Nearest Neighbor (KNN) algorithm to classify the text	CAMBRIDGE, MA <i>Sept 2018 – Dec 2018</i> NEW HAVEN, CT <i>Jun 2018 – Sept 2018</i> HEFEI, CHINA <i>Dec 2017 - May 2018</i> HEFEI, CHINA <i>Sept 2017 - Dec 2017</i>
Publication	Zhou, Y., Ma, M., Lu, Y., Ma, H. and Zhang, H. (2018+). "Recursive Partitioning Based Multivariate Adaptive Regression Models, Classification Trees, and Survival Trees: The macs Package for R". [In progress]	
Teaching	COMPUTER PROGRAMMING A (C PROGRAMMING LANGUAGE) Teaching Assistant, University of Science and Technology of China <ul style="list-style-type: none">• Lectured over 90 UTSC students on Q&A sessions of Computer Programming A for four hours per week• Managed lab guidance, graded student assignments and exams	HEFEI, CHINA <i>Sept 2017 – Jan 2018</i>
Leadership	STUDENT UNION, MINISTER OF ACTIVITY Minister of Activity <ul style="list-style-type: none">• Led a team of 15 to draft policy memos, coordinated discussions, and finalize policy enactment• Led the development and launch of a performance assessment system to improve operational excellence• Chaired monthly meetings to collect feedback from student representatives to improve the interaction between faculty and students FRESHMEN SEMINAR Research Team Leader <ul style="list-style-type: none">• Read the essay related to our research topics, built a model about predicting global climate• Completed the essay and thesis oral defense with teammates, got an A with the joint efforts of team members	HEFEI, CHINA <i>Sept 2016 - Jun 2017</i> HEFEI, CHINA <i>Sept 2015 - Jun 2016</i>
Skills	Statistics & Computer <ul style="list-style-type: none">• Naive Bayesian Model, Decision Tree Model, Logistic Regression Model, Convolutional Neural Network, etc.• C/C++, R, Python, LaTeX, HTML, CSS, JavaScript, MATLAB, Microsoft Office, PS, AE Activities <ul style="list-style-type: none">• Big Data & Computing Intelligence Contest• National College Students Mathematical Modeling Competition• Big Data Modeling Contest• "Find the next madman" Competition
